Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The U.S. Government is waking up to China s growing presence in Latin America. For the last several years as U.S. policymakers attention and resources, largely diverted from Latin America, have been focused on the Middle East, China has pursued a policy of economic engagement with the region. Sino-Latin American trade has sky-rocketed, and Chinese investment in the region is picking up. In this monograph, Ms. Janie Hulse, a Latin American specialist based in Buenos Aires, Argentina, argues that increased Chinese investment in regional telecommunications and space industries has implications for U.S. national security. She believes that globalization, advances in information technology and China s growing capacity and interest in information warfare make the United States particularly vulnerable. Ms. Hulse details China s expansion into and U.S. withdrawal from these intelligence-related industries in Argentina and highlights associated risks for the United States.
