MANIPULATING LIGHT WITH FIBRE BRAGG GRATINGS

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | Nanosecond Switching Using In-Fibre Electrodes and Ultra-Narrow Filtering of Millimetre-wave Signals | FBGs are key components for a vast number of applications in optical communications, microwave photonics systems and optical sensors. This book is about FBGs applications in direct microwave optical filtering and high speed switching. A comparison is made between the extensively researched incoherent optical filters and a technique based on a direct spectral filtering of microwave signals transmitted optically. The example of a double-peaked superimposed FBG used in reflection...
