

Palladio s Legacy: Architectural Polemics in Eighteenth-Century Venice

Filesize: 4.81 MB

Reviews

It is in a single of the best book. This is for those who statte there had not been a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Dr. Barney Robel Jr.)

MARSILIO, Italy, 2013. Paperback. Book Condition: New. Bilingual. 250 x 200 mm. Language: Italian,English . Brand New Book. How and why Palladio has become the most influential architect of the Renaissance and beyond. There is perhaps no single architect who has had as great an influence on the development of architecture over the course of the early modern period and beyond as Andrea Palladio (1508-1580). For more than four and a half centuries, his works have continuously provided a touchstone for architects, not only in the Veneto, where architects were able to scrutinize his works firsthand, but abroad as well. Indeed, his followers are legion; however, the manner in which his oeuvre has been interpreted varied considerably according to time and place. His successors have ranged from those advocating a return to classical orthodoxy to those who have sought to borrow from his work more freely. Yet as the call for architectural reform grew ever more urgent over the course of the eighteenth century, this polysemy came to be overshadowed by a rationalized classical interpretation of Palladio s work.
