### **Reviews**

*Comprehensive manual for ebook fans. I am quite late in start reading this one, but better then never. Its been written in an exceptionally basic way and is particularly merely soon after i finished reading this publication in which really changed me, affect the way in my opinion. Hodder Education. Paperback. Book Condition: new. BRAND NEW, Biology Now!: Ages 11-14: Pupil's Book (2nd New edition), Peter D. Riley, Biology Now! 11-14 is one of three Pupil's Books that cover the requirements of the National Curriculum for science at Key Stage 3, the Common Entrance Examination at 13+ syllabus and equivalent junior science courses. Based on Biology Now! 11-14, the clear text and colourful illustrations and photographs fully explain the concepts and encourage background reading. Boxed sections are used to show how scientific ideas have developed and how they are applied in today's world. Throughout there are numerous questions that test a range of skills including comprehension, application, analysis and evaluation. These may be used as a basis for classwork or homework. There are also 'For discussion' sections to encourage group discussion. In this second edition the Chapters have been reorganised to reflect the QCA Scheme of Work. There is also additional information on types of tissue, parental care in different organisms, daily adaptations in plants and animals and a new chapter on Plants for Food. Each book has a glossary and is supported by a Teacher's Resource Book that contains details of practical work.
