SOME PHYSIOLOGICAL AND MOLECULAR PARAMETERS RELATED WITH OBESE ADULTS

Condition: New. Publisher/Verlag: Noor Publishing | The aim of this study was to assess some physiological and immunological parameters in obese adult as well as to study the relationship between the ages, Body mass index (BMI) and waist circumference(WC) with both groups and sex. In addition, find the association between DNA polymorphism of some the candidate genes and obesity (phenotype) and to investigate the gene mutation that may be related to obesity using PCR- SSCP-sequencing technique. The study was conducted...
