## DESIGNED FOR PLUNDER: HOW THE FEDERAL RESERVE TOOK YOUR HOUSE, JOB, AND SAVINGS (PAPERBACK)

DOWNLOAD

Createspace, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Our monetary system promotes universal struggle, poverty, unpayable compounding astronomical debt, continuous rising prices, and war. So much for the benefits. On the downside, predators have taken control of our monetary system, dominating society and deforming humanity in the process. Since money is the sovereign over politics, those who control the money control the nation, a de facto conquest. By confusing the nature of money, you have been lead to believe that the monetary system is complex and few can understand it, but the fraud is actually easy to understand. This book will remove the confusion about money, confusion being an essential ingredient to keeping you and the rest of society in poverty. You will understand what is happening to you, and why. It is technical and detailed for those who want it. This book deals with the foundation and nature of money and debt, but does not cover derivatives. The charts take you step by step through how things work, or you can skip them. They are not hard to understand if you are willing to take the time.
