Excerpt from **Descriptive Catalogue and Price-List of Native Plants of the Southern Alleghany Mountains: Fall and Spring, 1891- 92; Including Deciduous and Evergreen Trees, Flowering Shrubs, Hardy Herbaceous Perennials, Vines, Orchids, Ferns, Aquatics and Bog** Plants The well-known botanist and horticulturist, Professor W. A. Stiles, in writing to the New York Tribune, says of our greatly favored Highland region It is a fact that no part of the world has furnished the gardens of Europe and America with so many ornamental plants of this kind (shrubs and lawn trees) as this same Alleghany region. Along the course of every rocky stream are masses of the great Rhododendron and Kalmia, while on the borders are smaller broad-leaved under-shrubs of rare beauty. But, beyond question, the most beautiful ?owering shrubs are the Azaleas, and four of the five species which belong to the ? ora of the continent are here massed together in the greatest profusion and luxuriance. There are a dozen other genera that could be named. Each with a special charm of its own. To these add the species that are small lawn trees in the north, but attain the stature of timber trees here, and we have a group that, for neatness of habit and beauty of foliage, ?owers and fruit, and brilliance of autumn coloring, has no rival.
