Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1920 Excerpt: . . . the writer was attending a patient who exhibits a beautiful example of the coloring matter of jaundice in his hair. He has intensely light and thick hair, and has had a very acute attack of jaundice, which imparted to the hair a definite golden orange tint. Examining a hair, one clearly sees the yellowish color plainly marked out in the center of the hair shaft. As the jaundice passed away the color of the hair definitely and rapidly changed in a few days. This fact would seem to prove that the color of the hair can be altered by substances taken internally and introduced into the blood--a fact of some cosmetic if not of curative importance. Capsules composed of hemoglohin have often been recommended for the purpose of darkening the color of the hair. Tho most dermatologists seem to deny their efficacy for this purpose, there appears to be some ground for the claim. The Diagnosis of Tuberculosis of the Kidney. --Eisendrath writing in the Southern Medical Journal (November, 1919) gives the following as the most important data upon which to base a diagnosis of renal tuberculosis: 1. Bladder Symptoms. --(a) Increased desire to urinate, at first often at night, but later diurnal; (b) painful urination, concomitant with the increased frequency, which gradually becomes more and more severe; and (c) incontinence or great irritability as the badder involvement progresses, so that the patient is unable to control urination. 2. Kidney Symptoms. --There is either a dull...
