Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

A POLITICS OF INEVITABILITY

VS Verlag Für Sozialwissenschaften Okt 2011, 2011. Taschenbuch. Book Condition: Neu. 210x148x12 mm. This item is printed on demand - Print on Demand Neuware - This book provides a detailed analysis of the controversial privatisation of the Berlin Water Company (BWB) in 1999. As with other cases of privatisation around the world, the city's government argued there was no alternative in a context of public debts and economic restructuring. Drawing on post-structuralist theory, the analysis presented here steps outside the parameters of this neat, straightforward explanation. It problematises the 'hard facts' upon which the decision was apparently made, presenting instead an account in which facts can be political constructions shaped by normative assumptions and political strategies. A politics of inevitability in 1990s Berlin is revealed; one characterised by depoliticisation, expert-dominated policy processes and centred upon the perceived necessities of urban governance in the global economy. It is an account in which global and local dynamics mix: where the interplay between the general and the specific, between neoliberalism and politicking, and between globalisation and local actors characterise the discussion. 236 pp. Englisch.
