A CO-OPERATIVE CITY AND THE CREDIT FONCIER OF SINALOA (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Co-Operative City and the Credit Foncier of Sinaloa A Co-operative city - the dream of Sir Thomas More, the hope of the Socialist, the Ultima Thule of those who look forward to a higher and better civilization than the world has seen - is the time yet ripe for its foundation? A movement has recently been inaugurated for the building of such a city, and my object is to describe the manner and details, the form of government, the various social reforms that must be inaugurated for the well-being, health, and happiness of its inhabitants. While it might be possible to build such a city on lands still unoccupied in this country, the projectors of the present enterprise have something more in view than the mere erection of dwelling-houses, the comfort of their inhabitants, and the proper conduct of business in the various daily exchanges. They aim at the establishment of a form of government that will include not only these, but will be applicable to the people of a nation, embracing every occupation - the distribution of products, farming as well as manufacturing industries, imports and exports, banking and insurance, commerce and the ownership and management of railways and ships - by the people of the commonwealth. For this reason it is necessary that a large tract of land should be obtained, situated on the sea-coast, with a good harbor. It should also be on one of the great highways, to which, from natural advantages, commerce would be readily attracted.
