PREDICTIVE BRAKING CONTROL WITH HYBRID ACTUATORS

FAU University Press Dez 2017, 2017. Taschenbuch. Condition: Neu. Neuware - Besides the environmental benefits, electric powertrains offer the potential to improve braking performance by exploiting the fast response of the electric motor. A particularly challenging control task for such systems is braking at the limit of the tire adhesion, which must optimally handle the actuation redundancy of the hybrid braking system in addition to coping with the high system uncertainties and the time varying dynamics of the tire-road contact...

Reviews

This kind of book is every little thing and taught me to looking forward and a lot more. It is really simplistic but excitement in the fifty percent of the pdf. Your life span is going to be change once you comprehensive looking at this publication.

-- **Mr. Wiley Kilback V**

A must buy book if you need to adding benefit. It is among the most incredible book we have study. I discovered this book from my dad and i recommended this book to find out.
