Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Federal Information Processing Standards Publication, Vol. 74: Guidelines for Implementing and Using the Nbs Data Encryption Standard Within the last decade, there has been a vast increase in the accumulation and communication of digital computer data in both the private and public sectors. Much of this information has a significant value, either directly or indirectly, and requires protection. It is common to find data transmissions which constitute monetary transfers of billions of dollars daily. Sensitive information concerning individuals, organizations, and corporate entities is collected by Federal agencies in accordance with statutory requirements and is processed in computer systems. This information requires some type of protection, and cryptographic protection may be specified by the authority responsible for the data. The nbs Data Encryption Standard must be employed when cryptographic protection is required for unclassified Federal adp data. The des Modes of Operation Standard [3] defines the methods or modes in which the des may be implemented. The rapid growth of computer data banks increases the potential threats to personal privacy. Since data banks often are accessible from remote computer terminals, there is a threat of easy and unauthorized access to personal information from any place in the data communications system. Such information has typically been scattered in remote locations, controlled under separate auspices, and physically or administratively protected. With a telecommunications network of computer systems, What was previously a laborious job of assembling comprehensive dossiers on individuals may become a simple task. Thus, both valuable and sensitive information require protection against unauthorized disclosure and modification. Encryption is a tool which may be used in data security applications. It is not a panacea. With improper implementation and use, data encryption may only provide...
