

## Nature of Snowdonia: A Beginner s Guide to the Upland Environment (Paperback)

Filesize: 7.54 MB

### ***Reviews***

*A high quality pdf as well as the typeface applied was exciting to see. It really is written in simple words and phrases rather than difficult to understand. You will not really feel monotony at any time of your time (that's what catalogs are for relating to in the event you question me).*

## NATURE OF SNOWDONIA: A BEGINNER'S GUIDE TO THE UPLAND ENVIRONMENT (PAPERBACK)

[DOWNLOAD](#)

Pesda Press, United Kingdom, 2009. Paperback. Condition: New. UK ed.. Language: English . Brand New Book. This is the first complete field guide for the mountains of Snowdonia through the seasons, its plants, animals and rocks. Don't tear up your chunky field guides to hill flowers, birds, lichens and animal tracks - pack this small volume in your rucksack for a day in the hills instead. Everything you're likely to see in the hills at that time of year is here in one volume. The chapters are organised by season; winter is the perfect time for studying rocks and lichen; in spring the bog flowers flourish and beautiful orchids bloom; summer brings fruits and flowers, and the trees are in full leaf; and, in autumn an amazing display of fungi appear, and the hill farms are busy again in preparation for winter. Each species is identified by its English common name, scientific name and Welsh name (there's also a brief guide to pronouncing Welsh names), accompanied by a clear colour photograph as it can be seen on the hills of Snowdonia. The geology section includes clear colour diagrams of the geological processes which formed the rocks underfoot and there's a rock quiz to help you remember your rock types. A little knowledge of thyme, tormentil and thrift will enhance your day in the hills. Fossil trilobites and roche moutonnee (rock sheep), bogbean beer and caterpillar fungus, are just some of the fascinating things you will discover. This is the first book of its kind for Snowdonia, encompassing all the things a hillwalker or climber might see in the hills throughout the year. Very useful for aspirant mountain leaders, who are required to show an understanding of the mountain environment.
