Reviews

It is an incredible ebook that we actually have ever study. This is certainly for all those who statte that there had not been a worthy of looking at. I am just pleased to inform you that this is the very best publication i have got go through during my individual daily life and can be he best ebook for possibly.
(Clarabelle Marvin)

SCIENCE AND A FUTURE LIFE (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.From the PREFACE. The elaborate Reports of the Society for Psychical Research seldom get beyond the shelves of its members, and it is possible that few of this class read them with any such care and patience as students are made to bestow upon Aristotle, Kant, and Hegel. I know one prominent member who had my own lengthy report on his table for six months without knowing what it was about. If those who profess allegiance to the work do no better than this what can we expect of the Philistines? Of course it is hard to blame anyone for this, because this is a busy world and there is too much to read. But I remark the fact to indicate the difficulties in the way of interesting even the best minds on so intricate a subject as this. I have endeavored in the present volume to summarise the most important of the Society's work, more especially with reference to such matter as might claim to bear upon the problem of a future life. I have accepted Mr. Podmore's book on Apparitions and Thought Transference as sufficiently illustrative of supernormal phenomena not claiming to be spiritistic and do not duplicate its material. I have also perhaps discussed the Piper Case more than does M. Sage in his admirable summary, because I wished to reach a class of English readers who may wish a fuller resume¹ of the general work. The chief questions which I wished to cover and which are not fully Covered in M. Sage's book are found in Chapters III, XII, and XIII. I have not intended that the book should satisfy the more exacting scientific standards,...
