BUFFALO MEDICAL AND SURGICAL JOURNAL, VOL. 3: AUGUST, 1863 (CLASSIC REPRINT)

Forgotten Books. Paperback. Condition: New. This item is printed on demand. Dimensions: 9.0in. x 6.0in. x 1.0in. Excerpt from Buffalo Medical and Surgical Journal, Vol. 3: August, 1863 Dr. Miner remarked that Dr. Rochester in reporting his case of diseased lung had perhaps unintentionally intimated his views upon the value and in uence of tonics and stimulants in arresting the progress of tubercu losis. This subject was now, or was about to, interest physicians and the public perhaps more than any other medical question. The universal adop tion of the stimulating and tonic plan of treatment in all cases of real or supposed disease of the lungs, he might perhaps say heart, and indeed truly enough, all other organs, had at length arrested the attention of the profession, and everywhere evidences of coming retribution, or rather coming investigation are apparent. Recently Prof. Flint, formerly of this City, had read a most interesting paper before the New York Academy of Medicine, consisting mainly Of a clinical report based upon sixty-two cases of arrested tuberculosis. The main objects of inquiry were, the evidence a orded of self-limitation, the in uence of hygienic measures, the agency of remedies, and the importance Of alcoholic stimulants in determining the arrest of the disease.
