

Evolution The Final Warning (Paperback)

By Cathy Currie

AUTHORHOUSE, United States, 2008. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Evolution The Final Warning, was written to inform the general public about scientific discoveries which should have altered human history. It also relates how human males have changed everything from Biblical scriptures to most aspects of human social life to accommodate animalistic maleness. Whether instinctive or intentional, these changes have consequences that reach deeply into humanity and even into eternity. Choice is a uniquely human power which has gone essentially unused because of humanity's copying of the chimpanzee social system. With the quantum nature of the universe, we are still living like chimpanzees when we could be choosing to live like God.
