(Laurence Littel)

THE SCOTTISH MEDICAL AND SURGICAL JOURNAL, VOL. 12: JANUARY TO JUNE, 1903 (CLASSIC REPRINT) (PAPERBACK)**DOWNLOAD PDF**

Forgotten Books, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Scottish Medical and Surgical Journal, Vol. 12: January to June, 1903 In the same journal in which Davenport s article occurs, C. Cleveland (american Gynecology, vol. I. P. 23, July 1902) writes regarding the Alexander Operation, or the Alexander Adams Operation for retro-displacements. He is very positive regarding the efficacy Of this means of treatment in properly selected cases, but he is also more conservative in its application than he was formerly. The uterus should be freely movable; if there are adhesions it is not a suitable case, even if the posterior fornix be opened and the adhesions broken up. A person with some constitutional dyscrasia is not a fit subject. It is very doubtful whether this shortening of the round ligaments is of much use in mere prolapsus uteri, or in cases where the uterus is very heavy or weighed down by a fibroid. Where shortening of the round ligaments is not indicated, Cleveland believes in Bissell s operation of internal shortening of the round and broad ligaments: it consists in cutting out a section of each round ligament, sewing the ends together, then stretching out the rent in the broad ligaments in Opposite directions, and sewing them together at right angles to the round ligament. Before per forming the Alexander Operation he replaces the uterus and adjusts a pessary as a preliminary manoeuvre, and he insists that the pessary be worn for two months after the Operation. He also considers curetting as an advisable preliminary. The rest Of Cleveland s paper is devoted to a very lucid and exhaustive account of the technique of the Alexander operation, which gynecologists might well peruse with profit. The causes of failure...
