## REPORT OF THE SECRETARY OF AGRICULTURE, 1989 (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Report of the Secretary of Agriculture, 1989 Usda has limited regulatory responsibility in the area of food safety. However, it worked closely with the Environmental Protection Agency (epa) and the Food and Drug Administration (fda) of the Department of Health and Human Services in developing the President s food safety initiative, which addressed the use of pesticides on food, an area of public concern. The year 1989 witnessed growing concern and knowledge about environmental issues. Usda is taking the lead in the protection of ground water quality. Usda focused on research, education, demonstration, and technical assistance on ground water, to find answers and to get them to farmers quickly. Usda is assessing the effects of global change on agricultural production and on range and forest ecosystems in the United States and throughout the world. Usda is also supporting research and demonstration projects on low-input Sustainable Agriculture (lisa). A rural revitalization task force found that a strategic approach to rural economic development could help enable rural areas to become economically competitive and improve incomes. The task force suggested ways usda could contribute to these efforts by focusing on long-term rural development strategies.
