*This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.*

Narr Dr. Gunter Mrz 2011, 2011. Taschenbuch. Book Condition: Neu. 220x150x24 mm. This item is printed on demand - Print on Demand Neuware - The book is the first in-depth study that aims to identify the conceptual rules and regularities underlying the (un)conventionality of figurative ways of speaking and reasoning. Using a combination of corpus-linguistic and cognitive-linguistic methods it investigates a large number of metonymies as well as metaphors, focusing on the former, less studied phenomenon. It provides an overview of their relative frequencies of occurrence in natural discourse and offers a systematic account of why some figurative expressions and/or conceptual mappings are preferred while others are less 'successful' in the speech community and thus shape our Language and thought to a lesser degree. Based on a critical examination of existing theories and material from the British National Corpus, the book points out similarities and differences between metonymy and metaphor as well as between different types of the two phenomena with regard to their conventionality and moreover demonstrates the value of usage-based studies for the cognitive-linguistic enterprise. 371 pp. Englisch.
