Duke University Press, United States, 2011. Paperback. Book Condition: New. 234 x 154 mm. Language: English . Brand New Book. No other city in South Africa bears the scars of white minority rule as obviously and as self-consciously as Johannesburg, the place where the architects of racial segregation were the most deeply invested in implanting their vision of separate development into the material fabric of society. Not surprisingly the city is also the place where this vision of racial exclusivity was the most bitterly contested in the popular struggles that eventually brought white rule to an end. Today, although a new generation of city builders has struggled to reinvent the city so as to reflect an alternative, more equitable politics that answers the basic needs of the urban poor, nevertheless the city remains deeply fractured, divided between two highly unequal and spatially disconnected worlds: one catering to the rich and another for those without regular work, without shelter, and forced to eke out a marginal existence. City of Extremes analyzes the relationship between the evolving urban form of Johannesburg after apartheid and present-day, boosterist, city-building efforts to create a world-class African city. The book shows how property-holding elites and their affluent middle-class allies have been able to maintain privileged life styles despite persistent demands from below for redress of long-standing grievances. The metamorphosis of Johannesburg from the exemplary apartheid city at the height of white minority rule has, Murray demonstrates, gone hand in hand with the emergence of new patterns of spatial inequality and new kinds of social exclusion, the result of city-building efforts that have partitioned the urban landscape into fortified renaissance sites of privatized luxury where affluent urban residents work and play on one side and impoverished spaces of confinement where the poor, the socially excluded, and the homeless are...
