Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1882 Excerpt: . . . upon the germ theory of disease. With such a result before us, the question arises, Why may not this be done for all germ diseases I believe it will be; and that we shall yet be able to protect our children from the scourge of scarlet fever, diphtheria, and c, as we are now from small-pox; possibly consumption Report of Health Officer, D. C, 1880, pp. 51, 52. may be brought into the list. Certainly the subject is large and the field open for all. T11EO. MEAD, M. D. , Medical Sanitary Inspector. Smith Townshend, M. D. , Health Officer, District of Columbia. VITAL STATISTICS. The population of the District of Columbia on June 30, 1881, is estimated at 133, 060 (white, 121, 300; colored, 61, 7(0). This estimate is reached by calculating the increase in same ratio as that given by the census of 1880...
