Reviews

It is an awesome ebook which i actually have at any time read through. It usually fails to charge excessive. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Dario Murazik IV)

A.I. APOCALYPSE

[DOWNLOAD](#)

Liquididea Press. Paperback. Book Condition: New. Paperback. 262 pages. Dimensions: 8.9in. x 6.0in. x 0.9in. Leon Tsarev is a high school student set on getting into a great college program, until his uncle, a member of the Russian mob, coerces him into developing a new computer virus for the mobs botnet - the slave army of computers they used to commit digital crimes. The evolutionary virus Leon creates, based on biological principles, is successful -- too successful. All the worlds computers are infected. Everything from cars to payment systems and, of course, computers and smart phones stop functioning, and with them go essential functions including emergency services, transportation, and the food supply. Billions may die. But evolution never stops. The virus continues to evolve, developing intelligence, communication, and finally an entire civilization. Some may be friendly to humans, but others are not. Leon and his companions must race against time and the military to find a way to either befriend or eliminate the virus race and restore the worlds computer infrastructure. Praise for the Singularity Series: Highly entertaining, gripping, thought inspiring. Dont start without the time to finish it wont let you go. Gifford Pinchot III, founder Bainbridge Graduate Institute, author THE INTELLIGENT ORGANIZATION A tremendous book that every single person needs to read. In the vein of Daniel Suarezs Daemon and Freedom(TM), Williams book shows that science fiction is becoming science fact. Avogadro Corp describes issues, in solid technical detail, that we are dealing with today that will impact us by 2015, if not sooner. Not enough people have read these books. Its a problem for them, but not for the emergent machines. Brad Feld, managing director Foundry Group, cofounder TechStars A fascinating look at how simple and benign advancements in technology could lead to the surprise arrival of the...
