Chronology of Science (Hardback)

By Lisa Rezende

Facts on File Inc, United States, 2006. Hardback. Book Condition: New. 236 x 190 mm. Language: English . Brand New Book. Spanning the vast history of science, Chronology of Science contains approximately 2,000 cross-referenced entries that chronicle scientific progress. Helpful identifiers categorize the entries into core areas (biology, chemistry, physics, marine science, space and astronomy, Earth science, and weather and climate). Also included are introductory and closing essays in each section, sidebars expanding upon important concepts in each time period, figure legends, appendixes directing the reader to further information on specific topics, a bibliography, and an index. This is a helpful reference tool for students looking for basic information about specific scientific events. The entries inspire the reader to investigate the topic further. After reading sections of the book, the reader will have gained accurate information about scientific history, as well as a sense of how scientific discoveries build upon events of the past, and an understanding of the way scientific theories have changed over time. This volume is divided into the following sections: Setting the Foundation: Science in Antiquity Through the First Century BCE; Expanding Knowledge: First Century CE-12th Century CE; Science in the Renaissance (1300-1632); Building the Base...
