Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The New System of Educating Horses: Including Instructions on Feeding, Watering, Stabling, Shoeing, Etc There are eleven million horses in the United States, and not one man in a million who knows how to educate them to the highest degree of usefulness. We say educate; for the horse is an animal of high and spirited organization, endowed by his Creator with capabilities and faculties which sufficiently resemble mans to come under the same general law of education and government. Primarily, the word educate mean s to lead out or lead up; and it is by this process of leading out and leading up a child s faculties that the child becomes a useful man, and it is by a like process that a colt becomes a useful horse. Now teachers, like poets, are born, not made. Only a few are gifted to see into and see through any form of highly organized life, discern its capacities, note the interior tendencies which produce habits, and discover the method of developing the innate forces until they reach their noblest expression, and then apply the true and sufficient guidance and government. The few who have this gift are teachers indeed, and next to the mothers of the world deserve the world s applause, as foremost among its benefactors. Next to child training and government comes horse training and government; and which is the least understood it were hard to say.
