University of Toronto Press, Canada, 2017. Paperback. Condition: New. 3rd ed.. Language: English . Brand New Book. The third edition of this bestselling book introduces readers to anthropology, and the world around it, by connecting important concepts to current global issues. A question-based approach encourages readers to understand specific issues in a broader cross-cultural context while building an appreciation for anthropology's role in developing global citizenship. This edition has been updated and revised throughout, including discussion of technology, design anthropology, and the effects of social media on cultural change. As well, two new chapters, one on global responsibility for refugees, and the other on human trafficking as a form of modern-day slavery, make the text particularly relevant.
