

The Messenger of Mathematics Volume 33

By William Allen Whitworth

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1903 Excerpt: .v-, and w-points are the vertices of a tetrahedron self-conjugate with respect to some quadric whose equation is of the form $Axx + A3x + A3x + Atxt = 0$. The fundamental tetrahedron is also self-conjugate with respect to this quadric. An almost intuitive proof is so obtained of the known result that the eight points common to three quadrics, when divided in any way into two sets of four, are the vertices of two tetrahedra which are selfconjugate with respect to a common quadric. Just published, in Medium 8vo, 238 pp., Cloth, Price 6 sh. net. Dr. H. ZIMMERMANN S CALCULATING TABLES For the use of Accountants, Architects, Astronomers, Bankers, Builders, Economists, Engineers, Insurance Offices, Physical and Chemical Laboratories, Manufacturers, Mathematicians, Merchants, Statisticians, Surveyors, etc. FIRST ENGLISH EDITION.
