The blockchain is an undeniably incredible invention - created by Satoshi Nakamoto. But since then, it has evolved into something greater, and the main question every single person is asking is: What is Blockchain? Blockchain is the world s leading software platform for digital assets. Digital assets, like bitcoin and ethereum, allow users to transact directly without any third-party intermediary and was built to radically improve the financial system. There is a lot of speculation and misinformation about blockchain technology. While it is a...
