GOTTA DO SOMETHIN BOUT THAT DOG! (PAPERBACK)

AUTHORHOUSE, United States, 2004. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.More American homes than not are graced by the presence of one or more canine creatures. Yet, canines are greatly misunderstood by the vast majority of those who own them. Their abilities and potential are rarely realized or even considered. Usually considered pets, canines are anything but that. The simple fact of domestication to exist among humans does not take the wild out of an animal. Descended from *Canis lupus* (wolf), dogs are complex animals possessing great intelligence, speed, strength, and agility. Their instinctual habits and behaviors are a fascinating study all their own. Few of us actually take the time to undertake such a study. Our misunderstanding and lack of knowledge of canine behavior often results in the removal of a dog from a family setting with an unfair brand of behavior problem or bad dog. Be it housebreaking, mouthing, destructive chewing, or hyperactivity, these behaviors can be corrected with proper conditioning and training. This book teaches the reader about the canine mind - the whys of particular behaviors and how to condition and correct in ways a dog will respond to. Proper training ensures a dog's lifetime with his owner. Contrary to America's Hollywood-type view of the family dog, a good dog is led by his alpha pack member, his owner, and is happiest and most productive in doing so. Dogs' innate working mentality and basic instinctive needs are, for the most part, misunderstood and thereby ignored by the average dog owner. Rather than realizing his dog's potential, the typical dog owner actually fosters behavior problems by his cozy, familiar view of what the family dog should be. However, dogs are not capable of understanding human reasoning and...
