

IGCSE Mathematics (Modular Maths for Edexcel)

By Terry Wall; Ric Pimentel

Hodder Arnold, UK, 2006. Soft cover. Condition: New. 2nd Edition. This second edition has been fully updated to bring it in to line with the latest University of Cambridge International Examinations IGCSE syllabus (2006), and is ideal for students following the Extended Curriculum (up to Grade A). Follows the order of the syllabus: Number, Algebra, Shape and Space, Statistics and Probability. Most chapters contain a Core Section, which revises material already studied, plus an Extended Section, which introduces the new material. International contexts are used to aid understanding and ensure this text is relevant to your students. Brand new ICT sections included, with ideas for ICT activities for each chapter. Assessment: each Core Section has two short-answer Assessments for students; the Extended Sections have two short-answer and two structured-question Assessments, corresponding to Papers 1 to 4 of the IGCSE examination. Worked examples and plenty of exercises throughout for rigorous drill and practice. Full solutions and an index are included.
