

The Dutch Rose

By Prashant Paramagoudar

LAP Lambert Academic Publishing Jun 2014, 2014. Taschenbuch. Book Condition: Neu. 220x150x6 mm. This item is printed on demand - Print on Demand Neuware - The rose is one of the oldest flowers under cultivation and most popular of all garden flowers throughout the world. It is one of the nature's beautiful creations and is universally known as Queen of Flower. An experiment was conducted at Hi-tech Horticulture Unit, Main Agricultural Research Station, Saidapur Farm, University of Agricultural Sciences, Dharwad, during 2009-10 to study the performance of Dutch rose cultivars under naturally ventilated polyhouse (NVPH). Among ten different cultivars Naranga recorded the maximum number of cut flowers per plant (14.13) followed by First Red (13.47) and Grand Gala (13.00). However they were on par with each other. The cultivars Naranga, First Red and Grand Gala had given highest benefit to cost (B:C) ratio of 2.28, 2.12 and 2.01 respectively. Vase life study with four preservatives at two concentrations for shelf life indicated that aluminum sulphate at 300ppm was the best in maintaining the freshness of cut flowers with extended vase life of 12.89 days compared to 7.77 days in control. The present study revealed that the cultivars viz., Naranga, First Red...

Reviews

I just began looking over this pdf. It is one of the most amazing pdf i have study. I discovered this book from my dad and i recommended this pdf to understand.

-- Merritt Kilback II

Good e book and useful one. I have got read and that i am confident that i will likely to go through once more again later on. It is extremely difficult to leave it before concluding, once you begin to read the book.
