Brand New Book ***** Print on Demand *****.Excerpt from Preliminary Report on the Mineral Resources of Oklahoma, 1908 Few states have either as many kinds of mineral or as much mineral of a kind as has Oklahoma, but at the present time not one half of one percent of it has been developed. The state has deposits, which for all practical purposes are inexhaustible, of the following valuable minerals: Coal, oil, gas, asphalt, gypsum, salt, lead, zinc, shale, clay, glass sand, granite, gabbro, limestone, sandstone, building sand, gravel, and Portland cement rock, besides smaller deposits of iron, copper, tripoli, novaculite, volcanic ash, and a little gold and silver. So little has been done in the way of the development of the mineral resources of the state that no one can yet even estimate either their amount or their value. This is the work which the Geological Survey is now attempting to accomplish. It endeavors to locate the various valuable minerals in the state, and to determine as nearly as possible their amount and approximate value. It endeavors in every way possible to bring these...
