W. W. Norton & Company. Paperback. Condition: New. 336 pages. An entertaining exploration into the death stories of our nations greatest leaders and the wild ways we choose to remember and memorialize them. To public radio host and reporter Brady Carlson, the weighty responsibilities of being president never end. As Carlson sees it, the dead presidents (and the ways we remember them) tell us a great deal about ourselves, our history, and how we imagine our past and future. For American presidents, there is life after death just a little weird. In *Dead Presidents*, Carlson takes readers on an epic trip to presidential gravesites, monuments, and memorials from sea to shining sea. With an engaging mix of history and contemporary reporting, Carlson recounts the surprising origin stories of the Washington Monument, Mount Rushmore, Grants Tomb, and JFKs Eternal Flame. He explores whether William Henry Harrison really died of a cold, how the assassins bullet may not have been what killed James A. Garfield, and why Zachary Taylors remains were exhumed 140 years after he died. And he explains the strange afterlives of the presidents, including why Hooverball is still played in Iowa, why Millard Fillmores final resting place is next to that of funk legend Rick James, why Whos buried in Grants Tomb became a running gag for Groucho Marx, why Ohio and Alaska fought for so long over the name of Mt. McKinley (now known as Denali), and why we exalt dead presidents not just with public statues and iconic paintings but with kitschy wax dummies, Halloween costumes, and bobblehead dolls. With an infectious passion for history and an eye for neglected places and offbeat characters reminiscent of Tony Horwitz and Sarah Vowell, Carlson shows that the ways we memorialize our presidents reveal as much about us as it does...
