Pub Date :2012-09-01 Pages: 196 Publisher: Machinery Industry Press title: micro-optics and nano-optics manufacturing technology List Price: 66.00 yuan: (U.S.) Kemi ed Zhouhai Xian. Cheng Yunfang translation : mechanical industrial Publishing Date :2012-9-1 ISBN: 9787111394488 Words: 268.000 yards: 196 Edition: 1 Binding: Paperback: 16 Weight: Editor's Summary This book details the micro-optics and nano-optical components success. the latest manufacturing technology. with emphasis on the critical professional skills to provide the latest technical information. including the surface relief diffractive optical elements. micro-optics plasma etch processing technology. use the analog phase grating mask lithography surgery. the electron beam of the optical device nanometer lithography manufacturing techniques. the nano-imprint lithography. and device applications. the design and manufacture of planar photonic crystal. a three-dimensional (3D). the photonic crystal manufacturing - tungsten molding method. The author of the book senate are micro-nano-optics manufacturing technology experts. representing the leading level of today's micro-optical processing. Book available for the field of photonics in optical instrument design. optical design and light machine structure design (especially in the theory of optical imaging. micro-nano-optical research) engineers. can also be used as a reference to relevant professional institutions undergraduates. graduate students and teachers book.
