Brand New Book ***** Print on Demand *****.Excerpt from Municipal Book Keeping and Auditing, 1920, Vol. 2 This volume has been prepared with a view to setting out in concrete form the principles underlying the proper accounting for Urban Municipalities of sufficient size to operate their own public utilities. Many disputed and debated principles are discussed, and even if the reader does not agree with all the decisions arrived at, he will at least know that he has seen both sides of the question. Acknowledgement is made of material used and points raised by various practising accountants in published reports on the finances of various American and Canadian cities....
