Page Publishing, Inc., United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.In the year 2260, Commander Daniel Bowers, a scientist, is sent to explore a newly found planet for possible colonization and habitation due to the overpopulation and environmental degradation of both Earth and Mars. But he has now awakened an ancient force and is shot forward in time. Right in the middle of a coup and conspiracy by the Earth President and an ex-Admiral, his former Commander, both do not care whom they hurt and wish to use the newly acquired alien technology found in the Andromeda Galaxy for their own profit and power. This brings Bowers right back into the middle of his ex-Admiral s newest agenda. To complete his original mission, Bowers will need to stop his ex-Admiral, the coup, and the ancient force he has awoken, but first he must remember who he is, from his memory loss, of being shot through time. Bowers and his new team, with one at first that does not accept him for who he says he is, believing he is causing the calamities and not the Ancient force or the ex-Admiral, the new team must now work together. As the conspiracy unfolds, will a current Admiral, and an old family friend learn in time what is going on and help him to stop the Ancient force, the coup, and to complete his original mission to help Earth and Mars?.
