DESIGN OF STEEL TRANSMISSION POLE STRUCTURES: STANDARDS ASCE/SEI 48-11 (PAPERBACK)

American Society of Civil Engineers, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book. This Standard provides a uniform basis for the design, detailing, fabrication, testing, assembly, and erection of steel tubular structures for electrical transmission poles. These guidelines apply to cold-formed single- and multipole tubular steel structures that support overhead transmission lines. The design parameters are applicable to guyed and self-supporting structures using a variety of foundations, including concrete caissons, steel piling, and direct embedment. Standard...

Reviews

I actually started off reading this article ebook. It is written in simple phrases instead of hard to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Dessie Witting

Absolutely among the best publication I have at any time go through. It is definitely basic but shocks from the 50 % of the book. I discovered this book from my i and dad advised this publication to find out.
