UNKNOWNNS AND THE 29 ARTICLES OF ALGEBRA: BOOK 2 OF DOODLES DO ALGEBRA (PAPERBACK)**DOWNLOAD**

Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. How Much of Algebra Is Covered In This Book? This second book in the Doodles Do Algebra series teaches the concept of the unknown and then covers the basic vocabulary of algebra (called the 29 Articles). The concept of the unknown, or typically x , is introduced at the start of the book as a transition between the mental math your child did in the first book in this series and the abstract vocabulary in the second part of this book that is necessary for your child to really become proficient with algebra. The entire series of lessons covers Algebra I and Algebra II as well as advanced topics most children today don't learn until college. What Is In This Book? This book includes the student work pages, teacher's notes, and answer key. Unlike most curricula for homeschooling that seems to include teacher's notes as an afterthought, this series is focused heavily on notes to the teacher. We provide alternatives for teaching each lesson so that you can adjust the material to fit your child. No matter how your child learns and understands math best, we have a suggestion. The Approach Answers The Question We All Hear: -Why Do I Have To Learn This?- All of us, at one time or another, have asked, -But why do I have to know this?- This curriculum is designed to eliminate those questions. Children begin solving real life problems that get progressively harder, perhaps even pushing your own limits of concentration but I guarantee your child will breeze through the material. At the end of this book, we introduce the concept of the unknown as a way to keep track...
