One of the most important books in the history of 19th century domestic design was Charles Eastlake's Hints on Household Taste. First published in 1868, it went through many editions and republications, and served as a basic source for philosophy of design for hundreds of architects, manufacturers, and decorators, as well as for perhaps hundreds of thousands of home owners. As the preeminent book which told its contemporaries what was proper, beautiful, and efficient, it had immeasurable influence on many areas of Victorian life. Eastlake was primarily interested in good design, particularly appropriateness and sanity in decoration, and a mutual respect between function and beauty. Yet this double influence renders this work even more important to the modern reader. Eastlake's pleasantly written discussion covers almost all aspects of domestic living in mid-19th-century England, from the arrangement of a vestibule to utensils for the kitchen: rugs, carpet, floor coverings; tiles; wallpaper, hangings, stencilled decorations; furnishing of all sorts; arrangement of decorative objects; picture framing; design of tables, chairs, cupboards, beds, etc.; hardware; crockery, table service; color combinations; concordance of material and function, material and decoration; and a host of other topics. As a result it is invaluable to everyone concerned with restoration, period design, cultural...
