And she has faith in me. That s good enough. The Cloud Wars was the final war of the mythical Ancients. Cities of glass and steel melted, the sky burned and billions were consumed in the fires of the Metal Spears. Centuries have passed and in Ennpithia nature has all but reversed the devastation. Survivors have advanced to a colonial level of society with law, economy, religion and education. Stone is the wasteland soldier, righting injustice in an unforgiving world. With his hard fighting companion, Nuria, and the enigmatic Map Maker, they are determined to thrive in this promised land and put behind them the horrors of Tamnica. But what they discover is a society tainted by secrets and mired in unrest, the fallout from a civil war ten years before. Pitted against sinister and ruthless adversaries, there will be more than their own lives at stake - for where there is Man there is always the ability for total annihilation. And for Stone and Nuria the future will rest in the hands of an enemy they know only too well.
