

Problems in Stone Cutting: In Four Classes for Students of Engineering and Architecture (Classic Reprint)

By S Edward Warren

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Problems in Stone Cutting: In Four Classes for Students of Engineering and Architecture This manual has been composed with the idea of representing, essentially, every class of structures, and every principal variety of surface, so as to make it most widely useful to the student in solving any other problems which he might meet. The student needs, desires, and appreciates explicit detailed information in due abundance, not to prevent him from thinking for himself, but to train him to do so by examples fully explained. On this principle, and supported by the best authorities, I have discussed the few problems which could be admitted within the proposed limits, so thoroughly as to satisfy, I trust, all who enjoy the most - indeed, the only universally - available help, viz., a printed text. I have attached scales and dimensions to the problems, which teachers and students may use or not, according as they prefer to work as if drawing actual structures for practical purposes, or to study the purely geometrical principles and operations involved. In either...

Reviews

I just began looking over this pdf. It is one of the most amazing pdf i have study. I discovered this book from my dad and i recommended this pdf to understand.

-- Merritt Kilback II

Good e book and useful one. I have got read and that i am confident that i will likely to go through once more again later on. It is extremely difficult to leave it before concluding, once you begin to read the book.
