LASER-GENERATED FUNCTIONAL NANOPARTICLE BIOCONJUGATES

Betriebswirt.-Vlg Gabler Jun 2016, 2016. Taschenbuch. Condition: Neu. Neuware - Annette Barchanski deals with the question how to design nanoparticles for biomedical research. She considers properties such as size, charge, biocompatibility, and functionalization of nanoparticles from a biologist's point of view in order to achieve specific cellular responses. The author discusses the structure-function relationship of nanoparticle conjugates derived from a laser-based fabrication method. Both the limits and perspectives of tunable conjugate functions are presented, providing a general outline for researchers...

Reviews

These kinds of ebook is the ideal book offered. It is probably the most incredible publication i have got study. Your lifestyle span will likely be convert once you total looking at this pdf.

-- **Lucio Breitenberg**

The best pdf i actually read. It is definitely simplistic but shocks in the fifty percent of the book. You may like how the author compose this ebook.
