JESSICA KINGSLEY PUBLISHERS, United Kingdom, 2011. Paperback. Condition: New. Language: English . Brand New Book. Children need effective communication skills as a foundation for successful participation in activities at home, school and in the community. Children with Autism Spectrum Disorders are often unable to learn social skills from environmental cues and require direct teaching and lots of practice. This collection of social communication cues will enable parents and professionals to help children with social development difficulties navigate their social world and enjoy interacting with their peers. Each section begins with a simple social rule; the reason why the child may be having difficulty in this area is explained; and easy communication prompts and practice ideas are provided. The younger these skills are practiced, the happier and more self-confident the child. This program is ideal for early intervention as it can be used with children aged 2 and up. This practical guide will be an essential resource for parents, teachers, speech-language pathologists, psychologists and therapists looking for a simple program for teaching social skills to young children with Autism Spectrum Disorders.
