

Optimized the basic theory and methods [Paperback]

Filesize: 2.89 MB

Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, after the way I believe.

(Prof. Loyce Runolfsson Jr.)

OPTIMIZED THE BASIC THEORY AND METHODS [PAPERBACK]

paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment.Paperback
Pages Number: 137 Language: Simplified Chinese Publisher: Fudan University Press; 1st edition (September 1. 2011). Optimization of the basic
theory and methods of nonlinear optimization theory. algorithms and related technology system introduced in terms of content selection. as far as
possible to avoid overly complex theoretical analysis. in order to adapt to different professions. different levels of technical staff to optimize the
needs of technology. as much as possible to increase the number of numerical examples application example of the economic and management
aspects of the book is divided into seven chapters. the first chapter introduces the basic theory of optimal; the second chapter is devoted to the
unconstrained optimization problem. optimality conditions and the linear search technology; The third chapter introduces the unconstrained
optimization. the main optimality conditions of the steepest descent method. Newton. conjugate gradient method; Chapter IV focuses on
constrained optimization problems; fifth chapter is devoted to the solution of quadratic programming algorithm; Chapter 6 describes the general
nonlinear penalty function method for constrained optimization problems; given in Chapter VII of the two special planning: geometric
programming and multi-goal planning. and gives some application examples. the optimal basic theory and methods of computational mathematics
as institutions of higher learning. the application mathematics. engineering. economic. financial and other specialized materials are also available
for reference for engineering and technical personnel and researchers.Four Satisfaction guaranteed,or money back.
