Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from A Disquisition on the Nature and Properties of Living Animals Their individual inquiries having been partial, and directed only to the attainment of knowledge concerning some particular organ or function connected with life, to the habits or forms of animals, to the physical and chemical laws of matter, or to the discussion of some dogma Connected with existence; their detached portions of inquiry have been properly termed, anatomical, experimental, metaphysical, and natural inquiries, examinations, histories, or descriptions of animals. But in a Disquisition, may be embraced the whole range of investigation, which reason with all her powers, aided by the experiments and observations of other men, can grasp concerning the subject; and upon that account I have used this term. Life or animal being, how imperfectly soever it may be understood, is that state of existence which man possesses in common with his fellow-inhabitants of this world of matter.
