Brand New Book ***** Print on Demand *****.Excerpt from Elementary Arithmetic In the preparation of this series of arithmetics the aims have been: First - To secure a high degree of facility in the fundamental operations and in those other processes which, in the actual business of life, are reduced to purely mechanical forms of computation. Second - To cultivate in pupils the habit of forming vivid mental pictures of the business transactions introduced in the exercises, and of the commercial and industrial relations of the numbers involved in the problems. Third - To make a clear and rational development of the theory of numbers as far as is necessary for intelligent arithmetical work. Fourth - To grade the work up, from the simple and easy to the more complex and difficult, by steps so gradual and in an order so logical, that the pupil will steadily grow in mathematical power and take pleasure in his own progress. In pursuance of the aims herein outlined, care has been taken to dwell upon each new process until the child has acquired a considerable degree of...
