Debra Barr was barely out of bed when she found herself thrust into a pivotal role in the future of the human race. Hey, she wanted to be more than just a small town girl, but this was ridiculous! Plucked out of her bedroom in small town Oquawka, Illinois to a future Earth destroyed and poisoned by a major asteroid impact, the future scientists explained how she could walk a few steps differently, and with YouTube, save the planet. But everything they told her was wrong. Instead of returning to her bedroom, she appeared two hundred years in the past, in the wilderness on the banks of the Mississippi River and it was up to her to discover the rules of time travel without killing herself or anyone else in the process. Bouncing through time, only one thing was certain, anything she decided to do could mean life or death for her family and friends and the route she chose would likely cost her everything. Unfortunately, the more she discovered, the more she suspected that everyone was lying to her. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN.
