AUTHORHOUSE, United States, 2001. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The world is full of whys. When you were a child, you wondered everything. Why is the sky blue? Why does the sun shine? Why is the grass green? Why does it thunder? Why did grandmother die? As you grew older, your whys changed. Why did I get a C instead of an A? Why doesn t she like me? Why is my car always breaking? Why does John always make money and I don t? Why are my relationships always failures? Why are these kids so rude? Why are there so many drugs . . . road rage . . . murders? And finally, why do other people dislike us, our society, and our country? This book doesn t pretend to answer why the questions in the first paragraph. However, it does attempt to explain the fundamental basics of the energies that govern our lives, bodies, relationships, and society. This won t bear much resemblance to your old chemistry or physics classes. Hopefully, it will give you a whole new perspective on who YOU are, how you came to be the way you are, and how you can find healing for your most basic problems. Additionally, you will see how our society - and the world - have developed to where they are today, and what you and your true self can do to help it heal. Good reading! Sally Shepherd.
