

Exploring the Religious Life (Hardback)

Filesize: 2.89 MB

Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, altered the way I believe.

(Prof. Loyce Runolfsson Jr.)

EXPLORING THE RELIGIOUS LIFE (HARDBACK)

[DOWNLOAD PDF](#)

JOHNS HOPKINS UNIVERSITY PRESS, United States, 2004. Hardback. Condition: New. Language: English . Brand New Book. Though religion is for most people one of the most important aspects of their lives, social scientists and other observers of human society too often misunderstand and misrepresent the nature and role of religion in history and in daily life. From the supposed decline of religious attitudes in Western Europe and the venal motivations attributed to the Christian Crusaders to the very definition of religion, personal biases and an inadequate grasp of relevant data have led to the formulation and propagation of unsupportable views on the sacred. In *Exploring the Religious Life*, Rodney Stark boldly overturns much received wisdom within the social sciences about religion, drawing on a wide range of sources to reassess a diverse selection of topics in the study of religion. In his first essay, Stark addresses the carelessness with which scholars use the term religion and the conviction that the belief in divinity evolved from the practice of magic in primitive cultures. In subsequent chapters, he challenges the widespread attitude among social scientists that religion is nothing more than a mask for material realities and examines the effectiveness of religious doctrines in attracting converts and influencing individuals; uncovers the surprising prevalence of upper-class asceticism in medieval Christianity; and explores the relationship between gender, piety, and criminal activity. Divine revelation is a central aspect of many religions, and Stark next applies empirical research to the phenomenon to assess its meaning in Judaism, Christianity, Islam, and Mormonism. He then turns to the confusion between faith and practice in debates over the secularization of the developed world before investigating the validity of the classic proposition within the social sciences that religion functions to sustain the moral order. He does so, examining the correlation between...
