Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Just as Thomas Paine wrote Common Sense in 1776 as a call for freedom from an oppressive government, this book exposes how elite politicians in collaboration with aligned big business and institutions are using our government to gain control over the populace. Based on extensive research, this book highlights specific actions that individuals, small groups, or organizations can take to assure that government is accountable to We the People instead of special interests. This book will answer the following key questions: Where did political correctness come from and what is its goal? Why do those who advocate for Big Government protest so much? How can we fulfill our moral imperative of properly educating children? Why do politicians want to divide us when we have so much in common? How can we reach out to others with compassion, logic, and truth? How can we overcome media bias to learn the truth?.
