

Computerized Multi-Purpose Pump Testing

By Naimi, Sepanta

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | COMPUTE | In universities or industrial institutions, the need for enhanced laboratory instrumentation has always been identified to increase the quality of laboratory experiments. As a solution to some of these shortcomings, a low-cost computer aided pumps testing system has been developed which can easily be adapted to varying demands of laboratory applications. The computer aided multi-purpose pumps testing system basically consists of pumps characteristics in different configuration. The system developed by upgrading the old system by implementing a data acquisition system with module based control software called COMPUTE (COmputer Multi-purpose Pumps Testing) on a personal computer located in hydraulic laboratory of mechanical engineering department in Eastern Mediterranean University. COMPUTE is flexible user friendly software that has been developed for performing measurements calculation, plotting and automating the operation of laboratory instruments. It provides the use of a number of modules to control various experiments in hydraulic laboratory at the same time such as a minor, majore loses test machine. | Format: Paperback | Language/Sprache: english | 72 pp.

Reviews

An exceptional publication as well as the font employed was exciting to see. it was actually writtern extremely flawlessly and helpful. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Dominic Collins**

This ebook could be worthy of a read through, and far better than other. I am quite late in start reading this one, but better then never. I realized this publication from my dad and i advised this publication to learn.
